

Coronavirus (COVID-19) Update – February 2022

The health, safety and well-being of our guests is our top priority. We are paying close attention to direction from the Federal and Provincial Governments, Public Health Agency of Canada, and Waterloo Region Public Health on the specifics of the Novel Coronavirus (COVID-19).

Daycamp Update

Our team has been hard at work in planning, and we are pleased to be able to offer our day camp programs, as well bring back some favorites and introduce a NEW camp. We are all hoping that the children will be able to enjoy the Waterpark and that is our intention for the 2022 camp season. We will however follow the current public health guidelines at the time of camp. For the health and safety of our campers and our staff members, there are changes that we must make to our programs in order to meet the guidelines that are put in place by the Provincial Government and the Ministry of Health, as well in consultation with our local public health unit.

What to Expect Onsite

In additions to regular health and safety procedures, the following additional measures have been implemented, these measures could be enhanced or eliminated based on the current public health guidelines for day camps at the start of camp:

- At this time children will not be required to be fully vaccinated with a Covid vaccine, however in order for children 12+ to participate in any of our public indoor activities they must be fully vaccinated. To this end we will not be planning indoor activities such as bowling and FunworX.
- Staff members will be wearing masks
- Children are not required to wear masks outside but must have a mask when entering the washroom or any indoor facility in case of inclement weather. **Please pack a mask.**
- Day camp area – This will be located outside in our lower marquee and playfield area just past the Embassy Room. Lots of trees for shade, loads of space to physically distance each group, park right at the day camp area, no walking through FunworX and down the hill!
- Each group will have its own designated drop off and pick up area which will be communicated in advance to parents, (a map will be provided), child(ren) will then be escorted to their group by a staff member, who will be wearing a mask and eye protection if 6 ft distance cannot be maintained. Upon pick up the child will be brought from their group by a staff member to the designated pick-up area to the parent. (if this is still required by public health by the time camp starts, if not parents will be allowed to drop off and pick up their child in the daycamp areas).
- Screening process is in place, a QR code can be scanned onsite with your mobile device to answer screening questions once completed a green check mark will appear, please show this upon check in. A link will also be sent to parents so that screening can also be completed prior to arrival at camp, once completed an email will be sent to you as a screening confirmation, please show this upon arrival.
- If your child is feeling unwell, they will not be able to attend camp that day, please keep them home for the health and safety of all
- Groups will not be mixing with other groups
- Each group will have picnic tables which will be placed 6' apart to ensure physical distancing from other groups

- Designated bathroom facilities for campers and camp staff only
- Continued and enhanced and more frequent cleaning protocols
- Individually packaged lunches and snacks which are created in our commercial kitchen operation
- All staff will be trained in COVID19 protocols.

The safety and security of our staff and guests is a priority at Bingemans. As such Bingemans has increased safety, cleaning/sanitizing and taken other measures to aid in preventing the spread of Covid-19 and other communicable viruses and diseases. Despite our increased efforts, due to the infectious nature of these viruses and diseases and the many patrons and guests visiting our facilities and venues or using our services, Bingemans cannot and does not guarantee that our facilities are virus free or that patrons and guests will not be exposed to viruses and other communicable diseases from staff or any other patrons or guests. Accordingly, Bingemans assumes no liability in respect of the spread of any virus or infectious disease and all patrons and guests attending at any Bingeman facility or venue do so at their own risk.
